

Connection w/ membership

- Obtaining membership notifications:

```
SpreadConnection conn = new SpreadConnection();
conn.connect(InetAddress.getByName("4803@localhost"), 0, "myname", false, true);

conn.spread.add(new AdvancedMessageListener() {
    @Override
    public void regularMessageReceived(SpreadMessage msg) {

    }

    @Override
    public void membershipMessageReceived(SpreadMessage msg) {
        MembershipInfo info = msg.getMembershipInfo();
        if (info.isRegularMembership()) { ... }
    }
});

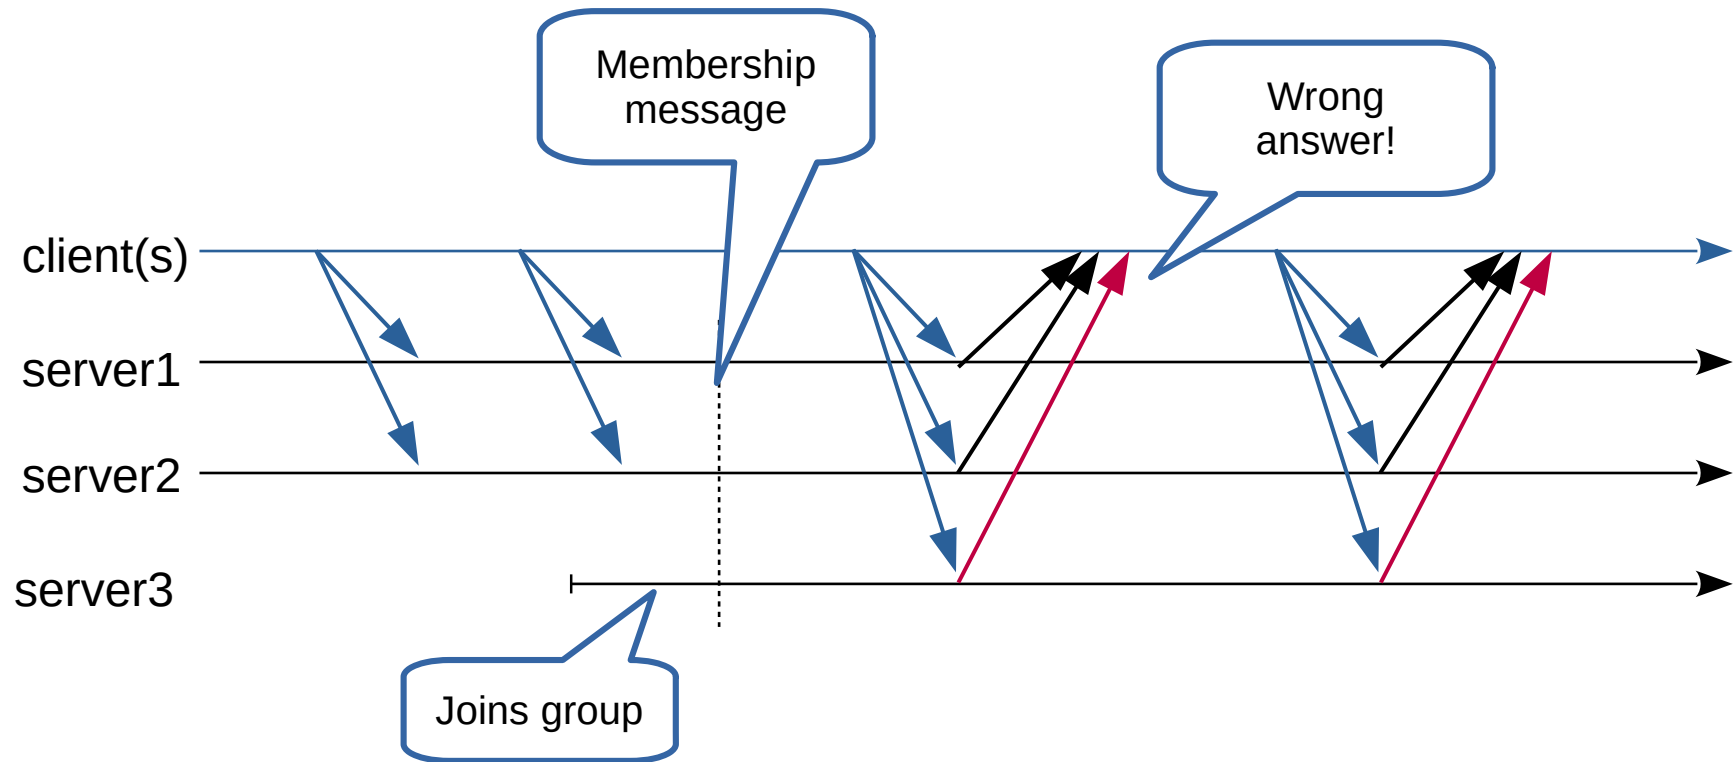

// ...

conn.disconnect();
```
